

## ERA OILFIELD SERVICE (THAILAND) CO LTD – WELL BORE CLEAN UP TOOLS

ERA Oilfield Service (Thailand) Co Ltd are a privately owned provider of oilfield and mineral drilling, completion, production, intervention and well construction product lines and services formed in Thailand in 2013.

ERA have satisfied clients across SE Asia, MENA, Africa and South America. ERA provide high quality API tubular running and handling equipment sales, service, installation and training support.

ERA provide a full range rotating and non-rotating well bore clean tools manufactured under API licence and ISO process certification to the highest required standards.

With long term partnerships from some of the worlds largest manufacturers we are able to provide technical and commercial benefits to all of our clients.

Our extensive knowledge of well bore clean up tools and equipment places us in a central position to provide you, our client, with expertise in advising and supplying your equipment and project needs.

### CASING SCRAPERS – ROTATING AND NON-ROTATING

We provide strong and reliable rotating and non rotating scrapers. The Sharprazor brand relies upon non bearing designs thereby making it one of the safest and most reliable designs on the market. Simple designs mean that all scrapers can be easily serviced in field.

### CASING BRUSHES – ROTATING AND NON-ROTATING

The range of casing brushes is again supplied in rotating and non rotating designs and covers sizes from 36 inch conductor options down to 7 inch casing ID options. Robust and available with standard API connection recommendations or made to order our range is field serviceable with no specialized tooling required for brushes to be changed out in the field.

### BASKETS AND FILTERS

Junk baskets of various types are a standard and basic option for WBCU. ERA also offer filter baskets in various forms for deep fluid cleaning by standard or reverse circulation methods and for BOP jetting. Filter gauges are variable and depend upon customer application requirements.

### JETTING TOOLS

Jetting tools for various applications are supplied for BOP and riser applications. Variable tool sizes and ODs dependent upon applications.

### MAGNETS

Magnets range provided in various designs suited to budget and application. We supply Tianhe, Kingwell and Sharprazor branded products including the premium Magstar 4 range.
