

Physical Science 1 w/ Lab Time: 2nd Period, 12-1:30 p.m 7th - 10th-grade

In this study of Physical Science, you'll be introduced to the stunning world you live in, as well as the universe around it. From the composition of air to icebergs to astrophysics, you will receive thorough lessons in each element of the physical world. Sixteen modules are included, that is designed to be completed in a total of 32 weeks time, though the course can be adjusted to your own needs.

Students will be doing labs that will better explain cubits and concentrations to start with. Each module has a different lab that will be fun to do.

Textbook: Apologia Physical Science (has clouds, sun, and moon on the cover), 2nd edition: Exploring Creation with Physical Science. Please use this link to purchase your textbook online. <http://www.christianbook.com/page/homeschool?event=AFF&p=1149087>

***Please note that I do need five enrolled students for the class to make.

Tutor's Responsibility: I am to help your student be accountable for completing the course. I do not grade assignments individually but in a group setting, aloud in class. I do keep accurate records to confirm that the student has done all the assignments. Plus, I design a weekly homework assignment regimen on Edmodo.com.

***Students will have periodic labs and weekly homework assignments. Open-book tests will be assigned. There will be semester projects for the fall and spring.
