ANNUAL BEST PRACTICES COMPETITION

The Annual Best Practices Competition is held by PESC to highlight and promote innovation and ingenuity in the application and implementation of interoperable data standards for business needs. First held in 1999, the Competition is open to institutions, associations, organizations, government agencies and departments, districts, consortia, non-profit and commercial service providers and other education stakeholders that have collaborated to design and/or adopt an electronic standardization initiative via a specific implementation, and/or other medium such as, but not limited to, published articles and white papers. The Best Practices Competition is open for submissions that can include descriptions of the scope of a project, participants, type of standards employed, relevant dates of project milestones, copies of articles (if an article submission), outline of mission/objectives and any related statistics (number of transactions transmitted, estimated cost savings, etc.).

2015	University of Tennessee System & AcademyOne
2014	Elon University & Parchment
