

Update: Delmarva Installation of Natural Gas Lines in Lynnfield

Per update from Delmarva, all of the natural gas main has been installed throughout Lynnfield and is now active.

Currently the contractor (Guardian) is still installing the gas services to the customers that have applied and have had their onsite meeting with Dave Titter, Delmarva Fieldman. The team anticipates completion of the service installation to be around the end of September. At that point, the crew will then concentrate all efforts on the restoration of the neighborhood. *If you have applied to have your home attached to the gas lines and have not met with Dave, please contact him as soon as possible to schedule a meeting and to make those final arrangements.* The Delmarva team has stated that they will do their best to limit any inconvenience to our neighbors whenever possible. Any questions and concerns can be shared with Dave Titter (david.titter@delmarva.com or at 302-290-9636). He and his team will do their best to accommodate your request. For more information regarding this project or adding gas to your home, you may also contact the My Switch to Gas Team at 302-429-3117 or mymwitchtogas@delmarva.com. We hope that this addition to Lynnfield brings positive results for our neighborhood. The LCA will continue to share information via NextDoor as we receive it. Thank you to all for your patience during this project!

If You Smell Natural Gas... Because natural gas is colorless and odorless, a harmless but strong-smelling ingredient called "mercaptan" has been added to draw attention to any leak that might occur. If you smell this strong odor, or you suspect a natural gas leak, take action right away:

- Immediately extinguish all open flames.
- Alert those in proximity of the potential danger and evacuate the area.
- Do not touch any light switches, do not use the phone, and do not use a flashlight as you leave. Avoid any actions that could cause a spark.
- Never try to fix a leaking natural gas pipeline or extinguish a natural gas fire.
- Do not start or turn off any motorized equipment.
- Do not attempt to find the source of a potential leak or to repair a leak.
- Move a safe distance away from the area and call your natural gas delivery company, or call 911 to report the location of the natural gas odor.
- Stay away from the area until trained professionals arrive to make it safe.

Remember, if you smell gas, leave your home first, THEN call 1-302-454-0317.

Annual Lynnfield/Webster Farm/Mayfield Yard Sale
will be held on **Saturday, September 14st**

(No need to register)

Please post on NextDoor Lynnfield if you plan to participate by selling items at your home so neighbors will know to stop on by! Advertised in Delaware News journal, Craigs List and NextDoor.

Safety Reminder

The NCCPD has seen an increase in thefts from motor vehicles and thefts of motor vehicles throughout all of NCC. **Secure your vehicles and avoid leaving valuables in unattended vehicles.** Report all theft or suspicious behavior to the NCCPD – call 911.

Nextdoor: Private Social Media Network for your Neighborhood

Important: The LCA uses our Nextdoor site to share important information quickly with Lynnfield neighbors. Sign up today at nextdoor.com or ask us to send you a request to join.
