We've included names and contact info to express your outrage/dissatisfaction with the Cancel Culture that is currently happening right before our eyes.

Go to page 10 and click on the links to access. This info is also in our Membership Rosters.

## CAMPAIGN PRECINCT—Waskah Whelan with Cathie Johns

The last three times a Republican has been elected president -- Trump in 2016 and George W. Bush in both 2000 and 2004 -- Democrats in the House have made formal objections to the electoral votes in states the GOP nominee won.

In 2001, House Democrats challenged the certification of electoral votes for then-Texas Gov. George W. Bush, a Republican, but the objection failed because no senator agreed to sign the written objection.

The certification challenge in 2005 was the only instance in recent years in which both a senator and a House member signed a formal objection to an electoral slate. Then-Rep. Stephanie Tubbs Jones, D-Ohio, and then-Sen. Barbara Boxer, D-Calif., together challenged Bush's victory in Ohio on grounds of alleged voter irregularities.

A similar situation occurred in 2017, when then-Vice President Joe Biden oversaw certification of the electoral votes that handed the presidency to Donald Trump. House Democrats challenged the electoral slate, but to no avail, because they lacked support in the Senate.

During all of these Democrat challenges, no corporation objected or demanded any of these Democrats or the Democrat party should be punished. The Constitution spells out in detail the right of Senators & Representatives to object to electors.

No one can stop the certification without a majority, but **Senators and Representatives do have the right to formally object.**

Companies that have **stopped donations to Republican members of Congress who opposed the Electoral College certification of Biden:**

<b>AT&amp;T</b> (among the top corporate donors in Washington)qqq	AirBnB

**Important:**

**Republican Accountability Project (new group from Bill Kristol)**

**The Republican Accountability Project will work to defend Republicans who vote for impeachment from the threat of primary challenges and standing up primary challengers to those who sought to overturn the election of Joe Biden. Made a \$50 million commitment to support the re-election of Republican lawmakers who join Democrats in supporting impeachment of the president.**

**Why would any liberal person vote for these “Republicans”, when they can vote for real Democrats, not converted Democrats? If these elite candidates were that popular, Trump Republicans would have never won anything. If these candidates are so popular now why would they need to raise \$50M to defend themselves?**

This elite “Liz Cheney” Republican Party is identical to the one we had before Trump. This is the Party that voters rejected in favor of Donald Trump.

[www.100percentfedup.com](http://www.100percentfedup.com) *This is a new site that has a lot to say. Check it out. They reported this:*

**The Wyoming Republican Party Blasted Anti-Trump Representative Liz Cheney.** *“Wyoming voted for the reelection of President Trump by a margin of 70% to 30%. Representative Cheney is in Washington, DC to represent Wyoming’s interest, not the interest of the beltway elites.”*

**Ms. Cheney will make a good Democrat as she is about retribution.** Republicans win elections, celebrate and move on. Democrats win elections, celebrate and then look for ways to punish and hurt those they defeated.

**Any time you receive a request for money from the NRCC or the NRSC, send them a note saying you will pick your own candidates to support and they will not be those that failed to support President Trump or his programs.**

**Possible Comments – Messages to Elected Republicans:**

- I won't donate to NRCC or NRSC as you support candidates that are not loyal to Republican voters
- Ask Liz Cheney for the money. She doesn't want support from voters like me.
- Kevin McCarthy and Mitch McConnell did not stay loyal to President Trump, so I'm not donating to them.
- I'm only giving money to those Republicans that stayed loyal to President Trump
- Ask the *Republican Accountability Project* for the money. They have \$50 million.

**Possible Comments – Messages to Corporations**

- Since your push against Republicans, I'm fearful that Republicans as a group will be attacked.
- When (Bank of America or American Express) says it's OK to despise Republicans and punish them, someone may feel they have a duty to target this enemy.
- When the Democrats objected to electors six different times, why didn't you punish them?
- I've been a life-long Republican but don't feel I'm welcome as a customer in your company now.
- If you find out I voted for Trump will my AMEX card be cancelled?
- Do you actually believe that 74 million Trump voters are all terrorists or potential terrorists?
- You have many Republican Seniors as customers, are you worried they are dangerous?
- Do you want all your Republican customers treated as if they scaled the wall at the Capitol?
- Do you believe in a **one-party system of government**? Your actions are almost guaranteeing that.
- Support leaving half of America without a voice? Marxists throughout history have believed that.
- Should Republicans lose their jobs, their homes, their university degrees as has been suggested?
- I've been your loyal customer for.....years and now I feel you don't want my business. I don't want to be surprised, so please let me know if I'm still welcome as a customer or should I find another "bank?"
- Over six different elections, there were Democrat challenges to the electors of Republicans, but no corporation objected or demanded any of these Democrats or the Democrat party should be punished. **The Constitution provides in writing that Senators will be asked if they have any objections to the certification of Electors.** They cannot stop the certification without a majority, but they have the right to formally object. Should they be punished for exercising this Constitutional right?

**Wikipedia: What is One-Party Government?**

A **one-party state**, single-party state, one-party system is a type of state in which one **political party** has the right to form the government, usually based on the existing constitution.<sup>[1]</sup> **All other parties are either outlawed or allowed to take only a limited and controlled participation in elections.**

The one party in power is the "*vanguard of the people*" and therefore its right to rule cannot be legitimately questioned.

Examples of this are the [People's Republic of China](#) under the [United Front](#), the [National Front](#) in former [East Germany](#) and the [Democratic Front for the Reunification of Korea](#) in [North Korea](#).

One-party states are usually considered to be authoritarian, even totalitarian and both are forms of dictatorship.

Wendy will be discussing some of the new 2A federal laws that will be and have already been proposed by the Biden Administration and what that means for Californians. And as part of the #NotMeSD (launched for women gun owners), she will also give us some pointers on gun ownership as women.

## WAYS AND MEANS—Diane Randolph

Here's hoping that our March meeting will be in person and not on Zoom. If we do get together I'll see if I can get a vendor or two and we'll probably do a 50/50 split the pot for a little excitement.

Just an FYI I was searching the web for a Birthday gift to give a friend of mine who is an avid Trump supporter. She loves to play cards and Mahjong. Low and behold I found really great Trump cards and they are made in America.

Here's what they look like with a brief description. If you are interested just send me an email and I'll send you the link. [Diane.randolph@att.net](mailto:Diane.randolph@att.net)

## CHAPLAIN—Ginny Wisley

*"But now abide faith, hope, love, these three;  
but the greatest of these is love."  
I Corinthians 13:13*

Happy Valentine's Day Ladies! It is hard, I know, to remember to be loving to those around us that we do not agree with and right now, there are a lot of those.

We have so much hate in this city, county, state, nation, world. It is so sad to see and to feel. We cannot change others, but we can change ourselves. We can be the first to smile (even behind a mask our eyes sparkle!), the first to laugh, the first to say I am sorry. We can be the first to share love, to share kindness. You do not have to agree but you do not have to disagree to the point of hate and arguing. How about just let the other person have their opinion and you have yours?

So, on this month of love, be the first to: make that call, send that card, reach out, share a random act of kindness, and remember the greatest of all is love!
