Crime Prevention Tips

- Burglaries have been known to occur over holiday weekends. All alarms and CCTV systems should be thoroughly tested before any holiday.
- Alarm systems should be UL certified with Line Protection and Keyed Guard Response.
- All valuable merchandise should be stored in locked safes. Safes should be UL rated for Burglary. TRTL30X6 or the equivalent is recommended in most cases.
- Jewelry crimes almost always involve casing – studying the intended target in preparation for the crime. Being aware of suspicious persons or incidents and writing down in a log book the details of the suspicious activity can be very helpful later on if a crime occurs.
