

I would like to thank everyone who came and shot in some crazy winds. We went from calm to 15mph 3 o'clock wind all the way to 4-5-6-and 7 o'clock wind, at anywhere from 5 to gusts of 18mph. The wind would then work it's way back to 3 o'clock again. The people who placed in the top ten have to be pleased. The food was Bar B Q, with cheese, home made pico, sour cream, flour tortillas, and red beans. We call this mexi-burgers. We had really good homemade peach cobbler with biscuit crust made by Judy Martin and ice cream. The WVVFD did a great job again of scoring and running the range. The Les and Roscoe Turner ranch provided the food, THANKS so much. The Water Valley Oil Cartel made up of Joel Gilstrap and Roy Green furnished the Plaques. Dennis Reed furnished the prizes and Scott Deal furnished the Top Ten Caps. The Water Valley volunteers also did all the heavy lifting in setting up the Range. They have gotten so good at running the Shoot that I am in the way, but they tolerate me when I get in nervous shoot mode. Thanks so much to all of these people. John Fiore and Tom Cunningham helped me do the light setup and I could not have done it with out their help. I saved Tymn Combest for last to thank. He is our tech guy and is called away from shooting all the time to trouble shoot the computer. Thanks Tymn.

I feel that some of us don't take time to think how vital the Volunteer fire fighting departments in Texas are. 75% of all fire fighters are volunteers. The not only receive no pay but miss work to protect us. They also do community projects. The WVVFD built my range for me when I had heart bypass just because they are great people. They never expected any thing from their work. Thank you all for helping me give back to them. They fought fires for 14 day straight in 2011 and saved half my ranch, my home, and many other homes in a fire that covered over 200,000 acres. They also a few years earlier saved Water Valley itself from another huge fire. This fund raiser shoot that I hold each year raised \$9,075 this year for them. Thanks to all who helped.

Now for the results:
