

## Skylark Drone Research founder certified as Drone Expert

*Skylark Drone Research Founder, Dr. Tulinda Larsen, presented Drone Expert Certification by Ted Bahr, InterDrone 2016 Conference Chairman*

**BAYSE, Va. - Oct. 25, 2016 - [PRLog](#)** -- Dr. Tulinda Larsen, founder of [Skylark Drone Research](#), was recently awarded a certificate of Drone Development Training at the [InterDrone](#) 2016 conference in Las Vegas. This certification verifies the completion of 23 hours of training about Drone Development, which Dr. Larsen intends to use to continue economic research into Drone feasibility for her clients.

"It is wonderful to have this opportunity to expand my knowledge in unmanned flight to accompany my 30 plus years in the aviation industry." stated Dr. Larsen. "This is a multi-billion dollar industry in the making, and [Skylark Drone Research](#) assists policy makers and the industry in choosing alternatives based upon systematic analysis, quantifying the cost and benefits of initiatives, including market potentials for new products and services." she continued. "This certification helps to increase my knowledge and increase my companies brand awareness and station as a subject matter expert in drones and drone utilization."

Dr. Larsen as CEO & Founder of Skylark Drone Research has joined the industry associations, Association for Unmanned Vehicle Systems (AUVSI) International Radio Technical Commission for Aeronautic (RTCA) to further apply economic principles to the drone industry.

About [Skylark Drone Research](#)

Skylark Drone Research is a woman owned business that specializes in applying economic principles and modeling to understanding the drone market. Economic analysis provides insight into how markets operate, and offers methods for attempting to predict future market behavior in response to events, trends, and cycles.

About [InterDrone](#)

InterDrone is a conference dedicated to commercial drone business, products, services, and regulatory environment. 2015, the first InterDrone Conference had 1,200 attendees. The 2016 InterDrone Conference had more than 3,600 attendees and 160 exhibitors.
