

3CMeNow Settings – for iPhone, iPad and iTouch iOS Platform

How to Install SCOPIA MOBILE v3

The purpose of the steps outlined below is to show you how to configure your PowerPoint® slide show to display full screen in your moderator window, and still allow you to see the participants list, chat and moderator controls in your main monitor display

1. Open **SCOPIA MOBILE v3**
2. Click the Menu button to go to **Settings**
(move to step 3 if you are already in Settings)

3. Enter the information indicated for the following fields:
 - a. **Scopia Desktop Server:**
<http://join2.ucanytime.com/scopia/mt/cacommunitycollege/>
 - b. **Bypass Login Credentials**
Your Name: *Enter your Name*
Password: *Password*
4. Press **Done**
 - You are now ready to connect to a meeting from your iPhone or iPad.
 - **Note:** Participants can now join and **START** a meeting from their iOS mobile device.
