2017 DF&GA Officers

Kelly Keenan, President
Bob White, Sr., VP
Phil LoPinto, Treasurer
Jeff Petz, Secretary

About Us

The Danbury Fish and Game Association was originally founded in 1912 as The Western Connecticut Fish & Game Protective Association.

We were renamed to the current in 1950 and incorporated in 1955, making us the oldest Fish and Game Club in the State of Connecticut. In 1998, we were able to secure a long term year lease with the City of Danbury for our current location on Hayestown Road. The original building housed the Town Constable, vacant for a number of years.

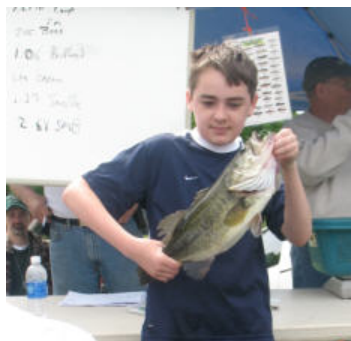

Today, we are a structured 501C3 non-profit corporation with by-laws, committees, and an annual election of officers. We are community minded and donate our time and money to a variety of Danbury area charitable organizations and events. We have funded the Bill Lauf Sr. Memorial Scholarship for decades.

Our Conservation Pledge

We give our pledge as Americans to promote, defend and conserve our country's natural resources – its waters, wildlife, land, minerals and forests.

Plenty of Big Fish!

TIPS FOR YOUTH FISHING

(How to reel in crappies, sunfish and unruly 5 year olds)

For quality time with your family, there's nothing quite like spending a day at the lake together. It's a fun, inexpensive and a great way to instill a love for the outdoors with your kids. Here are a few quick pointers to help make sure your fishing outing is a success:

- **Get the right tackle.**
If you're just starting out, spincast gear provides trouble-free performance so you can focus on fishing, not dealing with line tangles. Also keep in mind that younger, smaller kids can cast better with shorter rods.
- **Practice, practice.**
To help them get ready and build anticipation for the big day, set up a target in the backyard for a little casting practice with a soft plastic practice plug (available at most fishing retailers) or a light sinker.
- **Catch fish!**
This probably goes without saying but what we mean is this is about quantity not quality. Your kids will have a lot more fun reeling in panfish after panfish rather than waiting for a 5-pound bass to bite. So finding a well-stocked pond or lake is essential. Your local bait shop should have some good hotspots to share.
- **Show them the basics but let them learn by doing.**
Once you've shown them how to cast (or have done it for them), hand them the rod so they're in control and can get the feel for detecting a bite and reeling in the fish. That's the most exciting part!
- **Keep them engaged.**
Don't plan on a marathon 8-hour day of fishing. Take them for a short outing and allow some breaks for rock skipping, swimming, enjoying some beach time, catching frogs – whatever keeps them happy and lets them enjoy the outdoors.
- **Don't forget the essentials.**
Bring plenty of snacks, water, sunscreen, etc.
- **Keep the focus on them.**
YOU catching fish should be your last priority.
