Each round will have a maximum of six rounds.

Players must bring:

Their Force.

Order Dice.

Pin Markers.

Dice Bag.

Sufficient Six Sided Dice.

Tape Measure.

3x 25mm Objectives!

Objectives:

Objectives can only be taken by infantry on foot, by being in base to base contact with the objectives. Objectives are considered impassable terrain that does not block line of sight.

Missions:

All the rounds will be played using the same scenario.

Roll for table edge, all games will be played using the long table edge.

Discuss terrain with your opponents.

Players can use forward deployment, reserves and outflanking. All players will deploy in a "wave" deployment.

Players will attempt to destroy their opponent's units and complete the "Classified Objectives", while attempting to preserve their own fighting strength.

Victory points are calculated at the end of the game.

Classified Objectives:

Each player will receive nine mission cards.

Each round, players will select three cards per round to attempt.

Players will place the cards face down on the table. This is so you do not reveal the cards to your opponent until the mission on the card is completed.

Completed cards will earn players Victory Points.

At the end of the round, discard the chosen cards. This is to ensure that the cards aren't played more than once.

Scoring:

Scoring will be based on the percentage of yours, and your opponents, order dice remaining.

In addition to this, points will be awarded for each of the "Classified Objectives".

Your own dice:

0% remaining – 0 points

1% to 25% remaining – 1 point

25% to 50% remaining –2 points

50% to 75% remaining – 3 points

75% to 99% remaining – 4 points
