

Revelation Timeline

Whereas this book of Revelation is to be accessible to every culture throughout history, that have many different forms of reckoning time; and the chapter and verse distinctions aren't authoritative, having been added lately; This treatise is intended to show the linear progression of the events mentioned in the narrative, without relying on time-dating structures.

Without time references, the order indicators fall to the numbered Seals, Trumpets, and Bowl judgements. The events can then be organized accordingly, using scriptural references and word and phrase associations to group like with like events.

This timeline is presented, not as doctrine, but as a way to study the scriptures. It is said that there are over 800 allusions and references to the Old Testament in Revelation. Come, look and see that the bible is a single, coherent whole; written by about 40 writers over a couple thousand years, but inspired by a single author, who is outside of our time dimension. Telling "the end from the beginning" [Isa_46:10] is the signature and verification of God's own work.

I make no claim to accuracy, this is presented for you to study and draw your own conclusions. I have endeavored to put my personal thoughts in () and the presentation comments in gray, and things to be noticed in bold letters or [].

Please share this with others as the time is short

In the early church, nobody thought this was Jerusalem, because the city didn't exist. When the Romans sieged Jerusalem in 70ad, they tore it completely to the ground, scattered it all over, and salted the dirt so that nothing would grow. After that they spread the Jews all over the empire (Diaspora). It wasn't until the Jews retook Jerusalem in 1967 that this could possibly be true.
