

Brent Collins

Hello! My name is Brent Collins and I am an advocate on the PAIMI Advisory Council. I was originally appointed to the PAIMI Council in June 2012 and I enjoyed the work that I was able to help with so much that I was re-appointed in June 2014. I am a consumer and have lived in many personal care homes. This is why it is important for me to help with P&A's Self-Advocacy Project. We travel around the state, helping educate those living in personal care homes about the other options that are available to them. I have lived in various parts of the state and have first-hand experience with personal care homes and state psychiatric hospitals. I aspire to be a film maker in Hollywood and I have vast knowledge on all things Egyptian.
