

Dc Power Supplies with Battery Backup

Input Voltage: 240VAC
Output Voltage: 24VDC Regulated \pm 2%
Details: Over 1,000 discharge/ recharge cycles
 Electrolyte suspension system
 Operates in any position
 Low pressure venting system
 3 - 5 years float device
 High recovery capability
 Special Voltages made to order

Caravan Battery Chargers

Input Voltage: 240VAC
Output Voltage: 12VDC
