

INFINITE FLEXIBILITY

SEAMLESS HDMI DISTANT EXTENSION

HDMI Extender, 120m Perfect Lossless Transmission

202-83 (120m 1080p)

- 120m/394ft HDMI Extender over IP with IR pass-through
- HDMI signal extender over single CAT 5e/6 cable
- Extend and split by LAN (delivery by Router/switch)
- Compatible with existing network
- Plug and play without any manual setting
- Auto cable length performance matching

HDMI over LAN unlimited Extender 120m

202-73A (120m 1080p)

- Transmit HDMI signal over a single Cat5e/6 up to 120m
- Better compatibility with HDMI source/ display devices and network cable
- Up to 1920x1080 resolution
- Compatible with existing internet
- Support with 3 types (point-to-point, router, one-to-many) connection
- Direct Plug & Play, work as extender and splitter

HDMI Network Extender Over Cat5e/ 6/ 6a/ 7, 60m

202-72A (60m 1080p)

- Extend HDMI signal over a single CAT6 with IR up to 60m
- Support 1920x1080 resolutions, 3D
- Lossless synchronous transmission
- Support uncompressed HDMI signal & audio output (LPCM)
- Perform auto cable adjustment
- Plug & Play
- Durable alloy heat dissipated enclosure

HDMI KVM Extender over Network Cable 120m

202-73K (120m 1080p)

- Extend HDMI signal up to 120m by a single Cat5e/ 6
- Support resolution up to 1080p@60Hz
- LED indicators show status of power and USB connection
- Support KVM function, remote control conveniently
- Support LAN standard 802.3 Ethernet 10/100/1000Mbps
- Compliant STP and UTP Cat5/ 5e/ 6 network cables
- Aluminium alloy housing design, stable and durable

NEW

4K x 2K HDBaseT HDMI v1.4 Extender Over single cat.5e/6 cable, with IR and PoE, 70m & 100m

202-75H-U

> Extend up to 100m at 1080p and 70m at 4Kx2K

202-75N-U

> Extend up to 70m at 1080p and 40m at 4Kx2K

- Support uncompressed LPCM audio and compressed DTS-HD, Dolby True HD
- Extend HDMI signal over a single Cat5e/ 6/ 6a/ 7 cable
- Support up to 4Kx2K resolution
- Support CEC, 3D and 24 deep color
- Support bi-directional IR pass back
- Compatible with HDMI v1.4 and HDCP
- Network cable can be powered by 12V input
- Durable alloy heat dissipated enclosure

Fiber HDMI Extender 1080p over 20km

202-F78A (20km 1080p)

- Single mode fiber optic transmission
- No need extra installation driver
- Transmit signal up to 20km
- Support IR pass back for easy control
- Durable aluminum alloy enclosure design
- Wall-mountable design for convenient installation
- Low signal loss, wide frequency band and strong anti-interference
- Avoid the electromagnetic interference in environment for long distance transmission
