Subject: Conflict Mineral Statement

Ref: Inquiries on - Conflict Metals or Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010: Section 1502 - Conflict Minerals.

Rebb Industries undertakes due diligence to attempt to determine if 'conflict minerals' are used in our products. Conflict minerals are described as Gold (Au), Tantalum (Ta), Tungsten (W) and Tin (Sn) that are sourced from the Democratic Republic of Congo or adjoining countries from mines controlled by non-governmental military groups.

As part of Rebb Industries processes for implementation our existing supply base and/or new supplier, and in particular suppliers of materials that contain the above named minerals were requested by questionnaires direct confirmation that materials we purchase do not contain conflict minerals and a self-declaration was/is required that the full supply chain process of the suppliers has been examined to confirm this. We can confirm that there is no indication that any products manufactured by Rebb Industries contain conflict minerals
