

4. Write nested for loops to produce the following output:

```
*****  
*****  
*****  
*****
```

5. Write nested for loops to produce the following output:

```
=  
==  
===  
====  
=====
```

Exercises

6. Write nested for loops to produce the following output:

```
1  
22  
333  
4444  
55555  
666666  
7777777
```

7. Write nested for loops to produce the following output:

```
1  
2  
3  
4  
5
```

8. Write nested for loops to produce the following output:

```
1  
22  
333  
4444  
55555
```
