

# **noble**

heat, heat  
boiling heat  
the water's getting hotter  
time to add the cream of wheat  
boiling lava  
breaking through the surface  
turn off the burner  
do not forget your purpose is  
one  
to be good  
two  
to be nice  
three  
to be clean  
repeat this twice

got to be noble  
got to be noble  
peace, love, rise above  
got to be noble  
got to be noble  
peace, love, rise above

fisticuffs are dumb  
dynamite is stupider  
the inner Galilean satellite of Jupiter is  
Io  
volcanic  
your top is blown  
erupting sulfuric  
feeding on your own  
you better mellow out  
check your anger at the door  
welcome to our sphere  
here we don't do war

got to be noble  
got to be noble  
peace, love, rise above  
got to be noble  
got to be noble  
peace, love, rise above
