

Homecare by Wesley

Wesley Living is a collection of companies serving seniors and their families for over 45 years providing housing and personal services. These entities include 28 affordable housing communities from Jonesboro, AR, throughout West Tennessee and Murray, KY. The Wesley Senior Ministries Foundation operates the GOLDEN CROSS Senior Resident's Fund™ to serve the needs of over 2,000 senior residents. In addition, Wesley operates two assisted living communities and Wesley Highland Terrace luxury apartments in Memphis.

Wesley Living has recently re-launched its in-home senior personal care agency now called "**Homecare by Wesley.**"

This non-medical home care service began several years ago as an extension of the Wesley Living family of senior care companies. **Homecare by Wesley** exists to give aging people and their families a new non-profit choice for in-home senior care with ministry at its heart. The seniors served are referred to as Members.

Members and their families view **Homecare by Wesley** as a unique solution to several challenges. Families are able to spend more quality time with a loved one by having Homecare by Wesley provide needed services. Children get to stay the children versus the grind of constant care. The cost savings versus assisted living and nursing homes can help prolong and preserve financial resources. Everyone maintains peace of mind and the senior loved one's needs are met in a loving a caring manner.

Homecare by Wesley's mission is to preserving dignity, providing convenience, instilling confidence and restoring peace of mind. Homecare by Wesley lovingly provides in-home services such as light housekeeping, personal hygiene assistance, medicine reminders, meal preparation, running errands, dressing and grooming.

Ministries like this are a definite need. According to Masters in Health Care, a medical education service, one quarter of families in the United States are involved in care giving for loved ones, and this can put strain on the household. However, the alternative, nursing homes, can cost roughly over \$60,000 per patient per year.

Homecare by Wesley can be an economical, personal solution to these issues. Those who want to know more about **Homecare by Wesley** should visit our website at <http://www.homecarebywesley.org> or call 901-380-4880. A free consultation will help determine how best to receive services.
