Quotes:

“The advanced logical skills that Mary demonstrates each day in our mathematical proofs class..*are skills that..many people in this world have, but a lot of them lack in other important areas* – communication skills, the amicability and responsibility required to work in a team, leadership skills, or personal responsibility. Mary has all of these, and her combination of well-roundedness with advanced analytical skills should make her stand out.” **Barry Smith** - Associate Professor

“Your support is greatly appreciated. My dad always talks about his time in the Navy and how everyone helps each other. Your support of me is evidence of what a great community the Navy Family is. I am very grateful for your support and hope that one day I will be able to support others the way that you have supported me.” **Mary**
