

FTS 370r

VANGUARD™ LED Series - Red FAA L-864
The Next Generation in LED Obstruction Lighting

Application

The Vanguard™ LED series is the most advanced lighting system Flash Technology has ever developed.

The FTS 370r is a red LED flashing light for night to create FAA tower types A1 to A6 for structures taller than 150' AGL.

Features/Benefits

- Patented optics eliminate ground scatter
- Automatic fail safe to night mode and notification if system has not changed modes in 19 hours
- L-810 LED marker kit design eliminates conduit
- Monitoring by RS-485 Eagle or Dry Contact
- Mode Status relay indication
- Optional MODBUS for third party monitoring

All FTS 370r series systems include an alpha-numeric interface for on-site:

- Alarm Notification
- Diagnostics
- Configuration
- Lighting Inspections

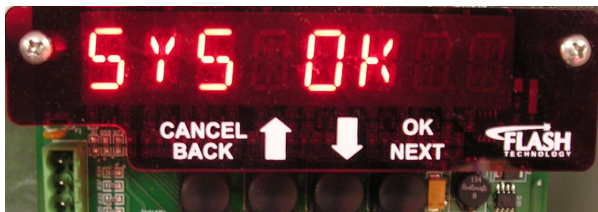

Patent Pending

FAA type A1 to A6 over 150' AGL

Specifications

- Power Consumption: 7W
- Input Voltage: 100-240 VAC
- Frequency: 50-60 Hz
- FH Dimensions: 15.75" dia. x 7.31"
- Controller Dimensions: 21.75" x 16.75" x 6.44"
- FH Weight: 26.3 lbs. (11.92 kg)
- Controller Weight: 22 lbs. (20 kg)
- Protection Rating: IP65, NEMA 4X
