

## OUR MISSION

Assuring professional and ethical development through quality continuing education and fostering legislation which promotes the profession.

Can I Become a Member?

The answer is “yes”, provided you meet one or more of the following criteria.

- You are a paid professional working at a recognized alcohol/drug treatment facility.
- You are a health care professional interested in promoting care for alcohol and/or other drug abusers
- You are a person working in the Human Services field, practice of Social Work or Behavior Healthcare Professional
- You are a student in the Behavioral Health/Human Services Sciences with current enrollment/class schedule in addictions coursework or Addictions Program.

We are committed to helping you along the path to reach your professional goals and strengthening excellence in our field.

Soaring in the 21st Century

## About us

### **RIISING TO MEET TRAINING NEEDS**

For over two decades AAADAC has been a primary organization in Arkansas dedicated to assuring the availability of qualified substance abuse counselors and other health care professionals interested in the field of substance abuse counseling and treatment. In order to provide excellence in service and care, professionals must have a continuum of training and education. We provide these opportunities at our annual week long Fall Workshop.

Because of the dynamic growth in the profession there are political and legislative concerns that must be addressed.

AAADAC is a clearinghouse for information and service as the voice of our members on these issues.

The AAADAC provides networking opportunities by informing our members of job vacancies and upcoming events in our newsletter, *Let's Chat*.

*Have a voice in legislative issues!!!*
