10.16 JUNK YARDS

Junk yards are prohibited when they are determined to be a junk yard as defined in Article 3 of this resolution.

10.17 BUFFERING AND SCREENING

1. REQUIREMENTS

A buffer yard shall be required along the boundary of all neighboring properties any property which proposes to facilitates unlike land use and/or has a zoning classification that allows for an unlike land use from the adjacent properties:

- a. To shield neighboring properties from any adverse external effects of a development;
 - b. To shield the development from negative impacts of adjacent uses such as streets or railroads;
 - c. To screen public views of rear or side yards and rear facades within double frontage or reverse frontage lots
2. Function and Materials – A buffer as referred to in this section shall be defined as a strip of land, free from buildings, driveways, or other impervious surfaces, that is permanently set aside by the owner for buffering purposes. Buffering shall provide visual and audio screening in order to minimize adverse impacts. It may consist of fencing, plantings, walls, evergreens, berms, rocks, boulders, mounds, or combinations thereof to achieve the same objectives. No buffer design or material shall interfere with the natural drainage of the area, unless it is demonstrated that the drainage is adequately addressed and accommodated in the lots constructed or to be constructed storm water management infrastructure, and won't affect adjoin lots.
3. Planting Specifications – Size of evergreens and deciduous trees shall be allowed to vary depending on setting and type of shrub. All trees, shrubs, and ground covers shall be planted according to accepted horticultural standards and be live at the time of planting. The buffering shall be significant at the time of planting to provide an immediate effect of visual screening. A landscape plan shall be submitted by the applicant that shows the buffering and this will be required to be approved by the Zoning Inspector. The buffer shall be at least 70% opaque during the winter and at least six foot in height at the time of planting.
4. Plant Species – The plant species selected should be hardy for the particular climate zone in which the development is located and appropriate in terms of function and size.
5. (existing 10.17.2) Installation and Maintenance
- a. Plant materials must be installed to current nursery industry standards for Central Ohio, within one year of the issuance of the occupancy permit. Plant materials must be properly supported to ensure survival. Support devices such as guy wires or stakes must not interfere with vehicular or pedestrian movement.
 - b. The owner shall be responsible for the maintenance of all landscaping. All required landscaping shall be maintained in a neat and orderly manner at all times. This shall include, but not limited to, mowing (of grass of six (6) inches or higher), edging, pruning, fertilizing, watering, weeding, and other such activities common to the maintenance of landscaping. Landscaped areas shall be kept free

of trash, litter, weeds, and other such material or plants not a part of the landscaping. All plant material shall be maintained in a healthy and growing condition as is appropriate for the season of the year. Plant materials which die shall be replaced with plant material of similar variety and size within ninety (90) days. Trees with a trunk diameter in excess of six (6) inches measured twenty-four (24) inches above the ground shall be replaced with ones of similar variety having a trunk diameter of no less than three (3) inches measured twenty-four (24) inches above the ground.

- c. Irrigation shall be provided to ensure that plants will survive the critical establishment period when they are most vulnerable due to lack of watering. All landscaped areas shall provide a system which provides sufficient water to ensure that the plants become established. The system is not required to be permanent if the plants chosen can survive adequately on their own, once established.
- d. Protection shall be provided for all landscaped areas, particularly trees and shrubs, from potential damage by adjacent development, including parking or storage areas.
- e. If the buffer materials have not been installed or maintained in accordance with the standards herein, the Zoning Inspector may issue a violation notice in accordance with the authority given in Article 4.1 - Duties of the Zoning Inspector. If the violation is not remedied according to the violation notice within the time noted in the violation notice, then fines may be implemented in accordance with Article 5.10 - Penalties for Violation.
- f. The Board of Zoning Appeals may grant a single time extension up to one year after a public meeting if substantial evidence is presented to indicate abnormal circumstances beyond the control of the owner or his agent.

10.18 OUTDOOR DINING AREAS

1. A zoning permit shall be required for the establishment of an outdoor dining area, patio, or café. If the outdoor dining area, patio or café is being proposed along with a new business, then the required site plans for the total project shall be submitted for review and approval. If the outdoor dining area, patio or café is an addition to an existing business the site plans shall be submitted for review and approval. All approvals shall be done by the Zoning Inspector.
2. Outdoor dining areas shall be adjacent to, abut, and be accessory to the principal structure of the primary business.
3. The size and location of the outdoor dining area, patio or café shall not impede upon or restrict the required parking, landscape and buffering, access to the primary business, or other standards of this zoning resolution. Additionally, the size and location of the outdoor dining area shall not cause other standards of this zoning resolution to not be complied with. The size of the outdoor dining area, patio or café shall not exceed (two hundred fifty) 250 square feet.
4. Outdoor dining areas, patios or cafes shall not be allowed within ten (10) feet of a fire hydrant, Fire Department standpipe connection, fire escape, bus stop, loading zone,

mail boxes or traffic signal stanchions. Also, they should have controlled ingress and egress entrances.

5. Outdoor dining areas, patios and cafes shall not be located within the required building
6. No music or other noises generated by the operation of an outdoor dining area, patio or café shall have audible disturbances on the neighboring properties or businesses during the hours of 11:00 p.m. local time to 8:00 a.m. local time.
7. Tables, chairs and furnishings shall be arranged so as not to interfere with pedestrian movement on sidewalks, ingress into or egress from buildings, or otherwise interfere with the proper and safe movement of people or vehicles in parking areas or on public or private streets, alleys, rights of way or other public owned property.

10.19 American Disabilities Act Compliance

All nonresidential districts shall comply with the Americans with Disabilities Act (ADA).

10.20 Solar Collection-Accessory System

1. Solar panels are permitted as an accessory use in all districts to promote clean, sustainable and renewable energy resources. The intent of these regulations is to establish general guidelines for the location of solar panels and solar collection systems to prevent off-site nuisances including unreasonable visual interference, light glare and heat that the incorrect placement of solar panels or solar collection systems may create such that they may have a negative effect on surrounding properties.
2. No solar panel or solar collection system shall be constructed, erected, installed or located without a zoning permit.
3. Requirements and Regulations. Solar panels or solar collection systems shall conform to or be evaluated for compliance with the following standards:
 - a. If roof mounted, the solar or photovoltaic system shall:
 - i. Be flush mounted on the roof unless good cause is shown by the applicant that the solar panel is not at an appropriate angle to obtain maximum sun exposure if mounted flush to the roof.
 - ii. Be located in a location on the roof so as not to be seen from the street(s).
 - iii. Not extend higher than the peak of a sloped roof or higher than 5 feet from the top of a flat roof.
 - b. If freestanding, the solar or photovoltaic system shall:
 - i. Not extend more than 10 feet above the existing grade in residential districts.
 - ii. Not be located in the front yard.
 - iii. Not be located in any required side or rear yard setback areas for accessory uses.
 - iv. Not be positioned so as to reflect sunlight onto neighboring property, public streets or sidewalks, including on any neighboring structures.
 - v. The surface area of a ground mounted system, regardless of the mounted angle, shall be calculated as part of the overall lot coverage. Not to exceed 10 % of lot size.
 - vi. Be landscaped at the base up to the height of the of the panel structure if structure is visible from neighboring property or the street(s).

- c. All signs, both temporary and permanent, are prohibited on solar panel or solar collection systems, except as follows:
 - i. Manufacturer's or installer's identification information on the system.
 - ii. Appropriate warning signs and placards.
 - d. Solar panel or solar collection systems shall comply with all applicable sections of the Licking County Building Code Department.
 - e. All electrical wires and connections on freestanding solar or photovoltaic collection system shall be located underground.
4. Maintenance: All solar panel or solar collection systems shall be maintained in good working order.
5. Procedure for Review. The review and approval of solar panels or a solar collection system shall comply with the following requirements:
 - a. Plan Review. A plan shall be submitted for review for all solar panel or solar collection systems. The following items shall be the minimum requirements to be considered a complete application and shall include the following:
 - i. Property lines and physical dimensions of the applicant's property.
 - ii. Location, dimensions and types of existing structures on the subject property
 - iii. Location of the proposed solar panel or solar collection system, and associated equipment.
6. Compliance with all development standards as outlined in this section.
 - a. Zoning Compliance. A Zoning permit must be obtained in accordance with this Zoning Resolution.
 - b. Building Permit. A Building Permit must be obtained from the Licking County Building Code Department.
