contract, and a provision that all money paid in and all rights are forfeited by the buyer if he does not comply with the terms of the contract. Prospective purchasers should read and understand the contract before signing same.

Subdivider advises a deed will be issued, upon request of any purchaser, at such time as one-third of the principal balance has been paid on the contract of sale.

UTILITIES: Note: Electricity and telephone lines have been brought into the area. The subdivider's firm has agreed to extension of power lines to any lot, without extension costs to purchasers, where approval for construction and necessary construction permits have been received by the purchaser. No public gas lines to the area are available.

ELECTRICITY: Imperial Irrigation District

GAS: Indio Gas Company (Bottled gas only)

TELEPHONE: California Water and Telephone Company

Note: Contact the above companies regarding extension rules and regulations, service connections and costs involved.

FIRE PROTECTION: The Salton Community Services District has agreed to furnish fire protection through the West Shores Volunteer Fire Department. Subdivider has agreed to install fire hydrants at 800 feet intervals.

MISCELLANEOUS: It is approximately:

30 miles to the high school  
15 miles to the grammar school

which are recorded may be inspected at the office of the Imperial County Recorder. Information about zoning may be obtained at the office of the Imperial County Planning Commission.

All under-ground water in, under, or flowing through said land and water rights appurtenant thereto are being reserved by prior owners.

Title also excepts all oil, gas, minerals, etc., with the right to enter upon the land to prospect, drill, mine, and develop such rights, and as reserved in the patent from the State of California, recorded in Book 832, Page 409 of Official Records. (Affects lands within boundaries of Section 8).

STREETS: have been offered for dedication for public use and have been accepted by the County.

FLOOD AND DRAINAGE: The subdivider's Engineer advises:

"There can be no possible damage from inundation from rising waters of Salton Sea due to the fact that the elevations in this tract are far above any level generally accepted to which the sea may rise.

"The southerly edge of this tract adjoins Palm Wash, which carries drainage from a portion of the Santa Rosa Mountains west of this tract. A sufficiently wide easement has been set aside for the proper construction of channels to care for this flow, and upon the construction of these channels all lots in this tract will be reasonably free from flood hazards."

The Division of Real Estate has no engineering personnel to make independent judgments on the suitability of drainage arrangements. Purchasers should make further inquiry of the subdivider or local government officials.

WATER: The Coachella Valley County Water District has agreed to furnish water to each lot in this tract. This county water district may levy taxes to finance projects to install and maintain water systems within the district.

SEWAGE DISPOSAL: Soil conditions are not favorable for septic tanks and cesspools except on a temporary basis. This form of sewage disposal may not function properly as the area develops. Contracts have been entered into providing for the payment of certain monies by the subdividers to the Community Services District for the eventual installation of a community sewer system.

A Community Service District may levy assessments and have the sold and exclusive discretion as to time, location and design of the construction and installation of disposal treatment facilities which are to be installed.

The Division of Real Estate does not have engineering personnel to determine the requirements of such a system or the costs involved. There is no assurance as to when or if each and every lot in this subdivision will receive the services of a sewage system.

DESERT WIND AND RAINS: Heavy winds blow from time to time in all desert regions in California, and this may or may not prove detrimental to this subdivision. During certain periods of the year heavy rains may occur in desert regions of California.

IN ADDITION TO THE ABOVE, THIS SUBDIVIDER ADVISES REGARDING FOLLOWING ITEMS:

PURCHASE MONEY HANDLING: The subdivider has certified he will impound all funds received from each purchaser in an escrow depository or trust account at Bank of America, Azusa Branch, ONLY UNTIL the contract is executed and delivered to the purchaser, excepting for such amounts as the subdivider may properly cover by furnishing a bond to the State of California. (Ref. Sections 11013, 11013.4(a), 11013.4(b), Business and Professions Code.)
