Dear Sponsor:

Chattooga County is full of children with potential for growth and greatness but far too few opportunities to develop and display their talents. As business leaders and owners in our county, we know you are committed to cultivating local students so that our future will brighten as their horizons are expanded.

With an average per capita annual income of less than \$15,500, the good people who make up our county don't always have the financial ability to take advantage of the few opportunities that are provided. Everything costs money and many times it is the children who unknowingly and unwittingly sacrifice for their family's more pressing needs.

USA Wrestling and Team Georgia have been committed to building character, and developing the hearts, minds and bodies of Georgia's youth. The Chattooga Indians Youth Wrestling Club has existed for the purpose of furthering those goals right here at home. For more than a decade, we have worked to demonstrate what is possible when a child commits himself to a goal and is taught the process for making his/her dreams come true.

We can only make our program available through local donations from you. Every dollar goes toward making this program a continued success and we are confident that our results speak for themselves. Thank you for your commitment to the Chattooga Indians Youth Wrestling Club, our county, and the future of each and every child whose lives are changed by your donation.

Sincerely,

Jake Burdick  
Coach
