

Dear Esteemed Patients, Friends and Colleagues:

It has been a privilege and an honor to provide for your neurological care and to serve the greater Jacksonville area for over 15 years. After much consideration, I have accepted an offer to work for Eli Lilly and Company in Indianapolis, Indiana to support headache research, education and policy making that will positively impact millions of lives globally. This job requires that my family relocate to Indianapolis in July 2018.

Continuing to support your healthcare needs is extremely important to me and I am pleased to be leaving you in the capable hands of the First Coast Neurosciences (FCN) team. FCN has medical professionals with a combination of over thirty-five years of experience treating all types of neurological conditions. Your care will be under the supervision of Dr. Steven Toenjes, Nurse Practitioners Amy Toenjes and Amanda Hare, and Physician Assistant Meredith Hawthorne as well as other qualified professionals that may join the team in coming months. I have absolute confidence in this team having personally selected and worked with them and I know you will too!

Our office may reach out to you in the next few months regarding an upcoming appointment and we will do our best to accommodate your scheduling needs.

Thank you again for giving me the opportunity to care for you and I wish you and your family a healthy and happy future.

Sincerely,

Erin G. Doty, MD
