

RV Orientation

This session is geared to RV newbies but can be useful for RV'ers that are upgrading into a new class of RV or for a refresher. This orientation is approximately 2 hours. Upon registration for the class, the instructor will provide a checklist to ensure you have all the necessary connections and other items needed to properly set up the coach. The Instructor will make recommendations based on the type of coach and how it is equipped if needed.

- The instructor will meet you at a local campground or place with full hookups. Campground fees are not included and should be pre-arranged by the RV owner. The instructor will guide you through the process and aid in site selection as needed.
- The instructor will ride from meeting point to the site and direct you in maneuvering into the site and discuss steps to take to ensure you are approaching the site properly and performing a walkthrough of the site before parking.
- The instructor will guide you through a proper campground set up and discuss best practices
- Upon the completion of the camp set up, the instructor will review how to operate all the systems on the RV as it is equipped.
