

VOLUNTEER MISSION 2016

Volunteer Mission, will be a virtual community "hub" where we would encourage all of our community to come together under one umbrella and develop an online calendar which will show all available volunteer opportunities. Volunteers in our community will have one site to go and this website will be designed with specialized volunteer software to create a database.

Volunteer Mission can not work alone. In our daily efforts to enhance and promote volunteering in our community, we look to you to assist with funding for things such as website hosting, domain cost, volunteer software purchasing, website management, volunteer resource material, online training, graphic design, and networking possibilities.

We offer two partnerships for Volunteer Mission:
