"We saw an opportunity to work with 130 countries and over 9,000 businesses of the NAMM organization and seen an opportunity to network with said companies to provide music education, and resources to rural & reservation communities in the Americas. Not to mention the unique opportunities that present themselves with the inclusion of a world entertainment evening. Over the years we have established relationships with All Star musicians at the NAMM convention in Anaheim CA.

It is here in Anaheim that we wish to honor all heroes of America, during this special evening for their courage and dedication to our country! Now more than ever we people of the world need to come together, teach each other, love each other, and most importantly respect each other in light of recent events in our country", stated Perry.
