FMJ Enterprises, LLC offers a line of repair compounds to repair:

- Tube sheets
- Pumps
- Impellers
- Tank lining
- Pipe wrap repair
- Glass line vessels
- Acid pads
- Secondary containment
- Epoxy floors
- Decorative floors
- Coolers
- Freezers
- Restaurant kitchen floors

We also offer many other repairs where replacement is not an option.

FMJ will evaluate your problems and offer you cost effective solutions with well trained highly skilled technicians to install our Novalac Chemical Resistant Products. We have over 30 plus years installing epoxy repair compounds to protect against erosion, corrosion and chemical attack. Our services will provide you with the correct product to serve your needs and give you many years of service.

Please see below some of our completed projects.
