Industry-proven reporting packages and outsourced accounting ensure accurate, dependable financial data.
- **Lower Costs** Invest in Focal's process expertise to experience a healthier bottom line from lowered operating costs.

FINANCIAL APPLICATION CONSULTING

Find out what your existing software can really do

Do More With What You Have

While many financial software packages perform more than basic accounting, most companies utilize only a small portion of their software's capabilities. Focal Consulting will analyze your software usage and help you access these untapped features, improve efficiency by automating more business functions, and create reports tailored to your business needs while delivering outstanding reliability.

Benefits Across Your Business

- Customized projects
- Database maintenance
- Periodic procedures and reporting
- Payroll reporting
- AR work flow – contract and billing management including customized AIA reports
- Automated report and reminder distribution
- Workers compensation management and reporting

*Opportunity.
