Warranty, Terms and Conditions

Limited Warranty, One-Year Term

ROBERN® warrants to the original purchaser that it will, at its election, repair, replace, or make appropriate adjustment to products made by this company shown to have significant defects in material or workmanship which are reported to ROBERN in writing within one (1) year from the date of delivery. ROBERN is not responsible for installation costs.

The warranty time period for operating components including door hinges and opening devices to the original owner extends beyond the one-year term.

The warranty is void in the event the product is damaged in transit, or if damage or failure is caused by abuse, misuse, abnormal usage, faulty installation, damage in an accident, improper maintenance, or any repairs other than those authorized by ROBERN. At the expiration of the one-year warranty period, ROBERN shall be under no further obligation under any warranty, expressed or implied, including the implied warranty of merchantability.

ROBERN shall not be liable for any consequential damages arising out of or in connection with the use or performance of its products. Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Any liability against ROBERN under any implied warranty, including the warranty of merchantability, is expressly limited to the terms of this warranty.

Permission to return any merchandise under this warranty must be authorized by ROBERN and returned prepaid by the purchaser.

Claims under this warranty should be sent directly to your dealer.

Note: Side Kits are only required as an additional item when the 12" V14 units are being used independently (i.e. not being ganged with other V14 or Adorn™ Vanities).

Tips:

1. Vanities require a countertop to complete installation. Refer to vanity instruction sheets for more detailed information.
2. 12" W vanities are designed to be used in combination with larger vanities. 12" W vanities do not include a side kit, but when ganged together, use the side kit that comes with the larger vanity.
- *3. 12" W Digital Wood side drawers are specific for left or side side installations. If used between two vanities; wood grain will not align.
- **4. Hair Dryer Organizational Insert cannot be used in combination with Slim Drawer Insert.
5. Ganging information can be found on pages 24 and 25.

2 VFGKIT
2 VFSTACK

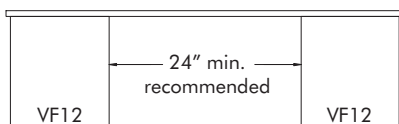

Stacking & Ganged
with Legs
Required Hardware:
2 VFGKIT
2 VFSTACKL

It is recommended to use a Full Storage Drawer for the bottom of a 2-drawer stacked unit. The Full Drawers come with glass dividers to partition the drawer in a variety of ways and does not include plumbing clearance cutouts.

Total Width of vanity area should be a minimum of 48" W.

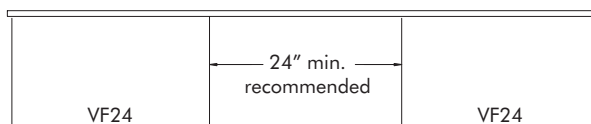

Example 1: Two 12" Wall-Hung Vanities

Example 1: Two 12" wide V14 vanities for a 48" wide Vanity Space:

- 12" wide V14 + 24" wide open space + 12" wide V14 vanity = 48" wide Vanity

Example 2: Two 24" Wall-Hung Vanities

Example 2: Two 24" wide V14 vanities for a 72" wide Vanity Space:

- 24" wide V14 + 24" wide open space + 24" wide V14 vanity = 72" wide Vanity

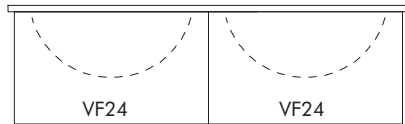

Note: For 12" wide Vanities, side kits will need to be purchased for this installation. See page 22 for side kit information.

V14™ & Adorn™ Ganging Reference

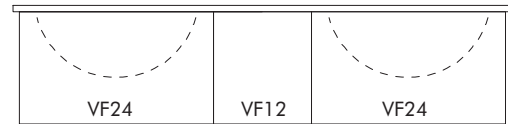

V14 & Adorn Vanities can be ganged together to form endless combinations and installations to meet a variety of needs:

To acquire the total width of the vanity, add actual vanity dimensions together.

Example 3: Dual Sink Installation
with Two Wall-Hung Vanities

Example 4: Dual Sink Installation
with Three Wall-Hung Vanities

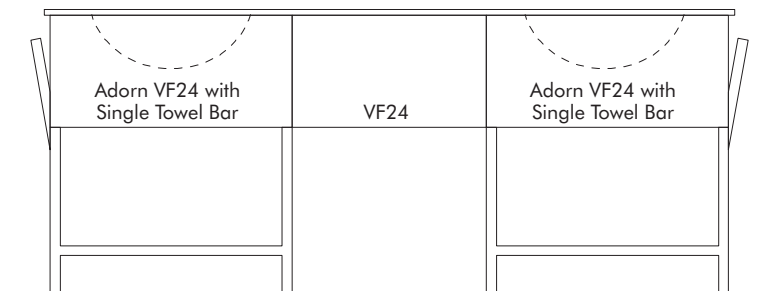

Example 3: To create a 48" dual sink installation:

- Two 24" wide V14: $24\frac{1}{4}" + 24\frac{1}{4}" = 48\frac{1}{2}"$

Example 4: To create a 60" wide Dual Sink Installation, three Vanities recommended:

- 24" wide V14 (left) + 12" wide V14 (center) + 24" wide V14 (right) = $24\frac{1}{4}" + 12\frac{1}{4}" + 24\frac{1}{4}" = 60\frac{3}{4}"$

Example 5: Dual Sink Installation with
two Adorn Vanities & one V14 Vanity

Example 5: To create a 72" wide Dual Sink Installation, three Vanities recommended:

- 24" wide Adorn (left) + 24" wide V14 (center) + 24" wide Adorn (right) = $24\frac{1}{4}" + 24\frac{1}{4}" + 24\frac{1}{4}" = 72\frac{3}{4}"$

It is recommended to use a Full Storage Drawer for the center drawer of a 3-drawer ganged vanity installation.

The Full Drawers come with glass dividers to partition the drawer in a variety of ways and does not include plumbing clearance cutouts.

Please refer to page 22 for 12" W accessory drawer options.

For 3-drawer installations in Digital Wood Patterns, it is recommended the center drawer is larger than 12" W to ensure wood grain alignment.

To acquire total width when ganging vanities, subtract 1/2" for each ganging kit used.

Example 1: one 27" Compact Vanity (VC27) and one 21" Compact Vanity (VC21) requires one ganging kit –
 $27\frac{1}{2}" + 21\frac{1}{2}" - \frac{1}{2}" = 48\frac{1}{2}"$

Example 2: two 36" Deep Vanities (VD36) and one 24" Slim Vanity (VS24) requires two ganging kits –
 $36\frac{1}{2}" + 36\frac{1}{2}" + 24\frac{1}{2}" - \frac{1}{2}" - \frac{1}{2}" = 96\frac{1}{2}"$

Tips:

1. Wall mirrors feature high polished edges and are available with plain or beveled edge. Mirrors come in both MP and MT height.
2. Height and width of mirror is actual size as noted by model.
3. Wall mirrors are supplied with concealed mounting hardware. Face of mirror projects 5/8" from wall.
4. Model number width of shelf should match model number width of mirror.
5. Shelves are 1/2" thick clear glass with high polished edges.
6. Bold/Solid line drawing represents actual model number. Faded/Dotted line drawings are for design reference only.

How to Calculate Total Width for Ganging Cabinets

M Series & PL Series cabinet ganging are handled the same way. Note: ganging hardware is not included and needs to be purchased separately. See the list below or the individual cabinet pages for specific ganging kit required.

Rough opening width/height = total width/height of the array of cabinets and lights minus $\frac{3}{4}$ " (1.9 cm).

Example: Three MT20 Cabinets – overall individual cabinet dimension is $19\frac{1}{4}$ " W x 30" H

- Width = $19\frac{1}{4}" + 19\frac{1}{4}" + 19\frac{1}{4}" - \frac{3}{4}" = 57"$
- Height = $30" - \frac{3}{4}" = 29\frac{1}{4}"$
- Total Rough Opening Dimension = 57" W x $29\frac{1}{4}"$ H

Three MT20 Cabinets

A pair of M Series vertical lights can be added to the above configuration. MTFL/MPFL Vertical Fluorescent lights are $1\frac{1}{2}"$ wide each and add 3" to the Total Width. Reflexion™ lights are $3\frac{1}{2}"$ wide each and add 7" to the Total Width.

- $57" + 3"$ lights = 60" Total Rough Opening required
- $57" + 7"$ lights = 64" Total Rough Opening required

When ganging multiple cabinets or multiple cabinets with lights, don't forget to order the proper ganging kit(s):

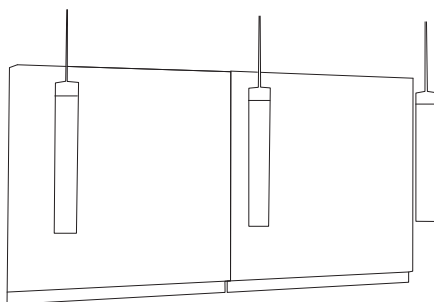

- MGKIT – ganging kit for M Series (MP or MT) when combining 2 or 3 cabinets
- MFGKIT – ganging kit for MF Series (70" H Full Length cabinet) when combining 2 or 3 cabinets
- PLGKIT – ganging kit for PL Series cabinets when combining 2 or 3 cabinets
- RGKIT – ganging kit for when Reflexion lights are combined with 2 or 3 cabinets
- 1.5GKIT – ganging kit for when the MTFL/MPFL $1\frac{1}{2}"$ W fluorescent lights are combined with 2 or 3 cabinets

Uplift™ cabinets are paired and not actually ganged together.

When recessing multiple cabinets, make rough opening holes for single cabinets with a stud in between, finished stud with drywall.

Uplift Rough Opening dimensions are:

- 30" W x 27" H Cabinet = $28\frac{3}{4}"$ W x $26\frac{1}{4}"$ H
- 36" W x 27" H Cabinet = $34\frac{3}{4}"$ W x $26\frac{1}{4}"$ H
- 48" W x 27" H Cabinet = $46\frac{3}{4}"$ W x $26\frac{1}{4}"$ H

Two Uplift Cabinets with Three Uplift Pendants

An Uplift Finishing Kit (UFKIT) is required to finish the drywall and completes the installation for multiple cabinets.
