

Used Tables for resale

We occasionally offer used tables for sale. Some we've taken in trade, or purchased outright. Some are freight damaged.

Regardless, you can be assured that any used table that is offered has been thoroughly gone through and cleaned and that any possible repairs have been made. You will be sent photos of the tables for your approval prior to shipping.

If You Can't Afford a New Tornado – What to Look For:

- Make sure the playfield is not warped and is blemish free.
 - On older home model tables (Whirlwind, Twister, Storm and Cyclone models) the playfields CANNOT be replaced!
- Make sure the cabinet sidewalls are not warped.
 - Warping is a sign of water damage and cannot be repaired.
- Make sure the goals are not chipped out; this cannot be repaired.
- Any year Tornado tables' component parts will retro-fit and can be upgraded.
- *We sell parts for less than anyone, anywhere!*

You can purchase an older model Tornado table and be assured that you can update and/or repair many components and use it for many, many years of play. We routinely sell parts for twenty and thirty year old tables.
