Prevent high utility bills by having your air conditioner checked and cleaned yearly!

Tune-Up Special Expires August 31, 2018

For the low cost of \$85.00 we will:

- Check operating pressures for proper refrigerant charge
- Clean condenser coil, if necessary
- Check operating volts and amps
- Check condensate drain and clean, if necessary
- Lubricate motors, where applicable
- Check safety controls, where applicable
- Check temperature drop across evaporator coil
- Clean and tighten electrical connections
- Inspect Filter
- Check capacitor strength

Special includes up to 1 hour at job site during normal business hours only.

7:00am to 4:00pm Monday through Friday – Parts extra if needed.

***Offer good on working systems only – “no cool” calls will be charged normal service rates.**

DON'T THROW AWAY YOUR MONEY

Tips for keeping your air conditioner in best shape.

- **A dirty condenser coil can increase energy consumption by 5 to 35%**
- **Low refrigerant charge can increase energy consumption by 10 to 50%**
- **Draw blinds or drapes to block sunlight during hottest part of day.**
- **In cooling season don't run exhaust fans longer than necessary.**
- **Do not place lamps or other heat producing devices beneath wall mounted thermostat.**
