

Rebecca's Family Tree

[The Intergalactic Peddler - Volume VI]

Don't let Rebecca's time travel from the 601st Century back to the 201st Century confuse you!

Note: 1A - William is 28 years old when Rebecca arrives in universe 2 in the year 20,914 AD.

Note: 2A - Rebecca's Mother named her daughter with the same first name (Angela). To solve the confusion issue, she and her husband David normally called their daughter Rebecca.

Note: 3A - Rebecca was born in volume VI, but traveled back in time to return the time travel vessel, The Empress, to Ronnie Yutaka. She died during Ronnie Yutaka's era.

Note 4A - How long did Rebecca live?

Born on Planet Earth 53,974 AD. Left IFTT Headquarters in the year 54,000 AD. She then was 26 years of age. She dies in the year 21,396 AD in the Fusion Galaxy, on the Planet Quantum, and arrived there in the year 20,914 AD. That time frame is 482 years. Adding the 482 years to 26 years makes her 508 years old when she died.
