

My name is Rozana Smolcic and I am the Director of MacFadyen Preschool Academy. I graduated Niagara College with my RECE and have been in the field for over 7 years. I chose to become an Early Childhood Educator as I love to teach children. They deserve the best care at such a young age to help and contribute to their growth as they grow older and are starting to prepare for school. I love teaching infants and they are just starting to learn new and exciting things on a daily basis. Such little bodies can intrigue ones mind as you can see what the child is learning and accomplishing by positive reinforcement on a daily basis. As every child learns and grows at their own pace, we are here to help guide the children into new beginnings at every stage of learning.
