Rose Planting and Care Tips

Shrub Rose Types

Exceptional winter hardiness and disease resistant, allowing these selections to be treated more like a traditional flowering shrub.

Easy on the Eyes
Oranges 'n' Lemons
Red Ribbons
The Fairy
Top Gun

Miniature Types

Everything about these selections is smaller-leaves, stems and flowers.

Cutie Pie
Daddy's Little Girl
Diamond Eyes
Hot & Sassy
Rainbow's End
Ruby Ruby

Climbing Types

Longer canes which are great for training on fences, trellises and arbors. Does not actually climb so canes must be tied up for support.

- ⊖ Plant in full sun for best results into rich, well-drained soil.
- ⊖ Plant grafted varieties with the bud graft offset about 1-2" underground.
- ⊖ Firm soil to eliminate air pockets after planting.
- ⊖ Mulch year round with about 2-3" of shredded wood mulch.
- ⊖ Water well when planted and then continue to water as needed

- through the growing season.
- ⊖ Fertilize with Fertolome Rose Food according to label directions throughout the growing season.
- ⊖ Keep plants healthy by pruning properly and controlling diseases.
- ⊖ Mound winter-tender varieties with 8-12" of soil, or compost or mulch through the winter for extra protection.
- ⊖ For lower maintenance, plant
