Kennel Cough Waiver

* Kennel cough, the common name given to infectious canine tracheobronchitis, is a highly contagious respiratory ailment among dogs. As the name suggests, it is typified by inflammation of the trachea and bronchi similar to a cold that you may get. This illness is found throughout the world and is known to infect a high percentage of dogs at least once during their lifetime. There are many strains of Bordetella. **Dogs are particularly susceptible when under any kind of stress, like being away from family while being boarded at veterinarian offices, day care facilities, and kennels. Thus the name "Kennel Cough". Vaccines offered by vets cover most but not all strains of Bordetella.**

I understand that my dog can contract Bordetella even if s/he has been vaccinated and I will not hold Vixen Hall Kennels or any of their employees responsible in the event that my dog becomes ill. I understand that Vixen Hall Kennels takes all necessary procedures to try to prevent my dog from contracting kennel cough but the threat is still there.
