

DISHWASHING DETERGENT

YJ-385

SOAK & DESTAIN POWDER

- ✓ High concentration
- ✓ Quick removal of tannin stains
- ✓ Without fragrance to comply with HACCP requirements

WHAT IT IS FOR

Developed for quick and safe removal of tannin stains from crockery, plastics, stainless steel tea urns, coffee pots and vending machines. It also helps in removing water spotting from cutlery and marks on most plastic chopping boards.

RECOMMENDED DOSAGE

150 to 300g per 10 liters of water, depending on soil level in hot water (65-75°C).

USE

For Plastic-ware

Dissolve 40-60g with supplied scoop for every 10 Liters, depending on the soil level, in hot water (65°C). Soak for 20-30 minutes. Rinse items thoroughly after de-staining.

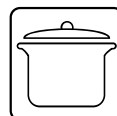

For Tea & Coffee Urns

Dissolve 120-150g with supplied scoop for every 10 Liters, depending on the soil level, in hot water (60-80°C). Soak for 30 minutes.

All items soaked in de-stainer powder **MUST** be rewashed before returning them to service.
