

YOUR DEALER FOR LIFE

WWW.CHECKBECK.COM

March 18, 2020

To our Customers and Guests:

The Beck Automotive family values the relationships, health and safety of our customers, guests and employees. To that end, we are taking the response to COVID-19 situation seriously. Our employees are being diligent in washing their hands and wiping down work spaces to disinfect desks, phones, keyboards, & doors, in addition to our normal cleaning procedures

We have enacted an in-store no handshake policy for greetings. We remain sensitive to the social distancing guidelines outlined by the CDC. In the event you're not comfortable coming into the dealership, please know there are convenient ways we can still serve you.

For our service customers, we realize that your vehicle is one of the safest ways for you to meet your travel needs. To that end, vehicles can be dropped off and picked up for service without having to come into the dealership.

For any of our local customers who may not want to visit our showrooms, I have instructed our sales team to deliver vehicles to your doorstep for a test drive. For any customer interested in purchasing/leasing a vehicle our sales team can assist you by phone, including texting, and on-line.

We are committed to answering your questions by phone or the internet...we are here to serve you. Thank you for being part of the Beck Automotive family. Wishing you all good health.

Sincerely,

Breck Sloan
President -Beck Automotive Group
