Fabric Wheelchair Bags for Spinal Cord Injury Veterans

While going through treatment and therapies, our Spinal Cord Injury Veterans often need to carry a notebook or 3 ring binder and a washable cloth bag for the back of their wheelchair would be useful.

Materials Needed:

Heavier weight fabric 18" x 18" (cut 2)
Nylon webbing straps 13 ½ " x 2 or 3"
wide (cut 2)

Instructions:

- Sew side seams and bottom edge (Double stitch for strength).
- Serge side seams, top edge and bottom.
- Angle corners (DO NOT CUT OFF)
- Fold down top edge 1 ¼ " and topstitch.
- Fold 13 ½" straps in half to form a loop and sew each looped strap to top ½ " from each side
- Finished bag should measure approximately 17" x 17"

Thank you for supporting our Veterans!
