## ADVERTISING INFO

Please support the advertisers that make the *Woodwind Lakes Newsletter* possible. If you are interested in advertising, please contact our sales office at 1-888-687-6444 or [advertising@peelinc.com](mailto:advertising@peelinc.com). The advertising deadline is the 8th of the month prior to the issue.

## ARTICLE INFO

The *Woodwind Lakes Newsletter* is mailed monthly to all Woodwind Lakes residents. Residents, community groups, churches, etc. are welcome to submit information about their organizations in the newsletter. Personal news for the Stork Report, Teenage Job Seekers, recipes, special celebrations, and birthday announcements are also welcome.

To submit an article for consideration please email it to [Lynn.Collins@garygreene.com](mailto:Lynn.Collins@garygreene.com). The deadline is the 7th of the month prior to the issue.

## Battling Stress and Despair in Unprecedented Times

We understand these are tough times in many ways. What can we do to 'lighten up?' Dr. Blaylock, a board-certified neurosurgeon, might be able to help us.

Yes, COVID-19 has caused us distress but our family has followed some of Dr. Blaylock's guidelines to survive this situation in the most positive way possible. We continue to socialize with caution, hand wash frequently and strive to have a healthy immune system. Being unhappy and stressed is NO fun!! "The key to changing our circumstances is understanding that what makes us most unhappy is how we handle a bad situation. The ability to appreciate the wonders around us such as incredible sunsets and sunrises, beautiful flowers, magnificent landscapes and many other natural gifts. Focusing on them can help us overcome even the most trying situations. We CAN make ourselves happy but it takes effort and self-control and it must become a habit. When despair strikes, rather than focusing on the issue that is troubling you, think of something that fills you with excitement or something that submerges you in wonder."

Let's continue to live in kindness and strength during these challenging days and not darken our days with gloom and negativity. We will get through these days. Let's keep our immune system strong and keep as positive as possible!

Healthy wishes,  
Donna Konopka

## CARPET BEETLES

Carpet beetles adults can be found outdoors on crape myrtles or other plants where the adults eat pollen and nectar. The adults may also be found in rodent or bird nests. When these adults move into homes, they may lay eggs which can lead to problems. These beetles can be pests in warehouses, homes, museums and other locations.

Carpet beetle adults are small, round to oval shaped and often brightly colored. Larvae are small, tan, and ringed with bands of long hairs.

Carpet beetle larvae feed on high protein foods, usually animal based, but they can also feed on plant material. They can be found in a variety of locations throughout the home. In the pantry, you may find them in items such as powdered milk, dried meats (jerky), or pet food. Other areas of the home they can be attracted to items made from wool, fur or feathers, areas where dead insects accumulate (i.e. light fixtures), leather book bindings, hair, silk or dried plant products. If the larvae are seen feeding on synthetic fibers, it is because the material is stained with body oils or food.

A program utilizing sanitation, exclusion and insecticides should be able to get a carpet beetle problem under control.

- Clean accumulations of hair, dead insects, and bird, rodent or wasp nests
- Regularly clean rugs, carpets, upholstery, etc.
  - o make sure to get along edges, under cushions, and under furniture where debris may collect
- Inspect animal based items (taxidermied animals, leather, wool, silk, etc.) once a year to avoid infestations
- Keep pantry items/ dry goods in sealed, air-tight containers
- Infested items (if possible, depending on the items) can be heated or cooled to kill any beetles
  - o freeze 2 weeks at temperatures below 18°F
  - o heat for at least 30 minutes to temperatures above 120°F
- Insecticides should be used as spot treatments- make sure

carpet beetles are listed on the label as well as the area/ item you are treating

- o make sure the product will not stain

If you find a few adult carpet beetles in your home, squish them on vacuum them up. A few adults usually do not warrant a full treatment, but you should watch for a developing infestation.

# Getting your annual mammogram is still important.

## Houston Methodist can see you safely.

Getting your annual mammogram is one of the most important steps you can take for early detection. That's why our Breast Care Centers are taking every necessary precaution during the coronavirus pandemic to keep you and our staff members safe.

We do not require a doctor's order for your annual screening mammogram. Schedule your mammogram today:

[houstonmethodist.org/breast-care](https://houstonmethodist.org/breast-care)

Willowbrook: **281.737.7465** | Towne Lake: **281.737.1832**

HOUSTON  
**Methodist**<sup>®</sup>  
BREAST CARE CENTER

During the coronavirus pandemic, we are:

**Screening all patients,** ensuring only those without COVID-19 symptoms are seen in the office.

**Wearing masks** and other personal protective equipment while providing patient care.

**Implementing additional sanitation processes** to disinfect all equipment and surfaces.

**Redesigning waiting rooms and check-in procedures** to ensure social distancing.
