- # **Best VPN Services 2019** PCMag November 26,2019 https://www.pcmag.com/roundup/296955/the-best-vpn-services

- ## **NordVPN Review** `EC` MSRP: $11.95 $3.49 at NordVPN - Limited Deal

  Pros: More than 5,200 servers in diverse locations worldwide. Unique, specialized servers. Six simultaneous connections. P2P allowed. Browser apps. Blocks ads, other web threats. Strong customer privacy stance.
  Cons: Has had issues with server security. Expensive. Cannot purchase additional simultaneous connections.
  Bottom Line: NordVPN wraps a slick client around a strong collection of features for securing your online activities and an enormous network of servers. It's a top pick for VPNs.

- ## **Private Internet Access VPN Review** `EC` MSRP: $9.95

  $2.91 at Private Internet Access
  Pros: Well designed app. Allows ten simultaneous connections. Above average number of available servers. Advanced security settings. Ad blocking. Supports P2P file sharing and BitTorrent. Multiplatform support. Strong stance on customer privacy.
  Cons: No free version. No specialized servers.
  Bottom Line: Private Internet Access offers a robust VPN service with an excellent new app interface and up to 10 simultaneous connections. It's a strong choice for large families or people with many devices in need of VPN protection.

- ## **TunnelBear VPN Review** `EC` MSRP: $9.99 $4.17 at TunnelBear - 2

  Year Plan
  Pros: Affordable. Excellent privacy policies. Annual independent audits. Friendly, approachable design. Browser extensions, including stand-alone ad blocker. Good speed test results. Bears.
  Cons: Lack of geographic diversity in server locations.
  Bottom Line: If you're tired of edgy security products, let the strong-but-cute bears of TunnelBear VPN defend your web traffic. Easy to use and easily affordable, it's an Editors' Choice winner.

- **CyberGhost VPN Review** MSRP: $12.99 $2.75 at CyberGhost

    Pros: Offers seven licenses with a subscription. Good server distribution.
- Strong privacy policy. Excellent and unique features.
    Cons: Expensive.
    Bottom Line: CyberGhost offers an excellent VPN product with strong, unique features not found elsewhere, along with a generous number of simultaneous connections. It's expensive, however.

- **ExpressVPN Review** MSRP: $12.95 $8.32 at ExpressVPN

    Pros: Large, diversely distributed fleet of servers. Strong privacy policy. Supports OpenVPN protocol across all platforms. Allows P2P and BitTorrent. Simple interface. Greatly improved performance.
    Cons: Expensive. Few simultaneous connections allowed.
    Bottom Line: ExpressVPN is a comprehensive VPN service with an impressive server fleet and excellent features. But, compared with the competition, it allows for fewer simultaneous connections, and it's more expensive.

- **IPVanish VPN Review** MSRP: $11.99 $5.19 at IPVanish VPN

    Pros: 10 simultaneous connections. Good geographic diversity of servers. Allows BitTorrenting. Automatic IP address cycling.
    Cons: Unwelcoming interface. Limited global server presence.
    Bottom Line: VPN service IPVanish secures your web traffic from prying eyes. It packs powerful features veteran VPN users will appreciate, and presents a good value overall, although its interface may intimidate the less experienced.

- **TorGuard VPN Review** MSRP: $9.99 $4.16 at TorGuard - 24 month plan
    Pros: Affordable. Numerous servers spread across the globe. Lets you easily add simultaneous connections. Many add-ons. Good speed test scores.
    Cons: Clunky client. No free subscription.
    Bottom Line: TorGuard VPN is the best bet for BitTorrent seeders and leechers looking to secure their web traffic. It's packed with features sure to appeal to security wonks, though its client is clunky. Read Review

- **Surfshark VPN Review** MSRP: $11.95 $1.99 at Surfshark - 2 yrs

Pros: Unlimited simultaneous connections. Unusual multihop and split-tunneling tools. Well-designed app.
Cons: High price. Occasionally opaque privacy policy language. Geographic distribution of servers could improve. Mixed speed test results.
Bottom Line: Surfshark VPN's comparatively high price is balanced against unlimited devices per account and an excellent set of features.

Symantec Norton Secure VPN Review MSRP: $7.99

$4.99 at Norton VPN

Pros: Affordable, flexible pricing. Robust server network. Integrated ad-tracker blocking. Good speed test scores.
Cons: No P2P or BitTorrent support. Few server locations.
Bottom Line: Norton Secure VPN offers VPN protection from a trusted name in security in addition to flexible pricing. That said, it lacks advanced security features and doesn't allow BitTorrent.

Read Review

ProtonVPN Review EC MSRP: $10.00

Pros: Excellent free version. Flexible, low-cost plans. Focus on physical security. Excellent privacy policies. Slick, accessible client. Multi-hop VPN to secure locations and Tor connections. P2P friendly. ProtonMail bundle available.
Cons: Few servers and locations. Difficult to find fastest servers. Full access to servers and features only at highest pay level.
Bottom Line: ProtonVPN doesn't have as many servers as much of the competition, but its focus on exacting security at an affordable price tag makes it a compelling choice. Plus, its free version is the best we've tested so far.
