

A by Pieter Kohnstam

This Choral Concert completes a dream of mine celebrating Anne Frank's memory by setting some of her quotations to music. Although there is a previously presented choral piece, this concert is unique. It is composed by using Anne's words set to the accompaniment of Jewish music of various genres, music being the language of brotherhood and freedom. Thanks to the enthusiasm and creativeness of Ronnie Riceberg, the Sarasota Jewish Chorale President, we set to work together for almost a year and a half resulting in the production of my vision.

In addition to singing Anne Frank's quotations there will also be a musical ensemble, music of the Holocaust to remember our brothers and sisters during the period from 1939 to 1945 and the second half of the program will celebrate the Miracle of Israel on its 70th anniversary. Moreover, a new composition has been specially ordered and composed for this concert.
