Energy Options Awarded Schneider Electric's 2014 Elite Partner Award

This marks Energy Options' sixth consecutive year receiving the award

Edison, NJ – May 18, 2015 – Energy Options, a division of Albireo Energy, today announced the receipt of Schneider Electric's 2014 Elite Partner Award. Schneider recognizes their top representatives with the Elite Partner Award each year, and 2014 marks the sixth consecutive year Energy Options has received the Elite Partner designation.

Energy Options has been a partner of Schneider Electric since 1979, starting as the third Andover Controls representative in the world. Their smart building solutions, which include building automation solutions and optimization services along with plant controls and energy services have been installed in hundreds of complex facilities including data centers, pharmaceuticals, healthcare, and commercial buildings throughout the northeast region of the U.S. As required by Schneider Electric, Energy Options sales, engineering and operations personnel go through a stringent training program, ensuring high-quality implementations are maintained.

"Energy Options consistently meets or exceed Schneider Electric's requirement to deliver high quality solutions and remarkable customer satisfaction results," stated Benjamin Murphy, Director, Northeast Partners for Schneider Electric. "They are a valued partner and early adopter of our tools and products."

"Our partnership with Schneider Electric is invaluable to Energy Options and is an additional reason our clients choose to do business with us," stated Brad Freeman, Divisional President, Energy Options. "As a partner of Schneider Electric, it is comforting to know that Energy Options always has the full support of the Schneider Electric factory and field organization. We look forward to continuing to grow our relationship with Schneider Electric."

About Energy Options

Energy Options, a division of Albireo Energy, is a premier building automation and energy services provider serving the northeast region of the U.S. since 1979. With over 40 professionals and access to industry leading technologies, Energy Options provides superior services and solutions to data centers, biosciences, commercial real estate, and mission critical facilities throughout NJ, NY, and adjacent areas.
