A Community Celebrating Life™

## EXECUTIVE SUMMARY:

Eden's Wellspring was established as a 501(c)(3) organization in 2013. Founded by the mother and primary care giver of a critical care young adult with a short term life prognosis, she sought to address the needs of the growing population of physically disabled young adults in the same situation as her son. With advances in medical treatment, many critical care young people 18 and older are living longer and are moving into adulthood with limited options. Lacking has been an alternate home care environment that provides for social interaction, recreational opportunities, and maturation and relationship development within their own age group, while also providing for their extensive life support needs.

The mission of Eden's Wellspring is to become the premiere model for the 10 residents or less category of critical care group homes in Arizona by addressing this need. Taking a holistic approach, the residents are encouraged to grow into their own identities and experience the best of life possible as they transition from childhood to adult. Just as important, it provides much needed emotional and physical relief to parents who are the primary care givers of these young adults.

There is currently a waiting list for the less than handful of existing group homes in Arizona who offer services to this challenging population group. These homes are limited in scope and do not provide for the social, relational and maturation needs, or the recreational desires of these young adults. These young people are often isolated, lonely, and are frequently mixed with a senior population.

Eden's Wellspring is committed to seeing these young people reach their full potential and is in the early stages of gathering funds and seeking Grant Opportunities for Phase One Property Acquisition and Development with a goal of \$6,646,289. We have currently raised \$67,000. We are committed to being debt-free at every stage of development.

Phase One includes the following needs:

1. Property Purchase, Closing Costs and Property Tax Escrow
2. Ranch Management Yearly Cost Escrow
3. Class A Semi Primitive Road Repair and Culvert Construction
4. Design and Construction of a Zero Net Energy Living Space and Landscaping
5. Planning, Design and Construction of Water Reclamation/Reuse System
6. Fire Suppression and Resident Video Monitoring Systems
7. Licensing and Miscellaneous Fees.

Eden's Wellspring believes that, with your help, we can make a tremendous impact on an under-served and marginalized group of critical care young adults and their parents/care givers. *Together, we can make a difference.*
