

Transportation Engineer - Edmonton

Scheffer Andrew Ltd. is a medium size engineering and planning consulting firm with a focus on providing land development, municipal, and transportation engineering services.

Duties of this position include, but are not limited to:

- Preparing traffic impact assessments for residential, commercial and industrial developments.
- Preparing transportation master plans for entire communities and for neighborhoods within them.
- Managing engineering aspects of rural and urban roadway projects.
- Planning, organizing, and directing resources to best serve the needs of our clients.
- Supervising, mentoring, and leading project teams for engineering projects.
- Delivering transportation projects within established timeframes and budgets.

The ideal candidate will have:

- A post-graduate degree in Transportation Engineering with 5 to 10 years of experience in transportation engineering. Relevant experience within Alberta and knowledge of Alberta Transportation guidelines and specifications is considered an asset.
- A P.Eng. designation or the ability to immediately register with APEGA.
- Experience in leading and advising design teams, clients and approval agencies.
- Proven business development and proposal writing skills.
- Exceptional leadership and communication abilities.

A candidate that possesses greater or less experience may also be considered. If you are interested in a great career opportunity with a growing, flexible, and dynamic organization providing an excellent compensation and benefit package, please apply.

For more information about working with Scheffer Andrew Ltd., and to submit your resume, please visit www.schefferandrew.com. You can also submit a copy of your resume to v.klyashitsky@schefferandrew.com

We thank all interested candidates. Only those selected for interviews will be contacted.
