Chippewa Valley Recreation Areas

Lake Wissota State Park has something different to offer the entire family: camping, hiking, cross-country skiing, snowmobile and horse trails, fishing, swimming, playing, learning and relaxing. The 1962-acre park has 81 well-spaced campsites designed for privacy, as well as, picnic areas, and a wonderful, sandy beach. They offer canoe rentals, a permanent pier for fishing, and a public access to 6300-acre Lake Wissota. Enjoy over 17 miles of scenic hiking trails along Lake Wissota's shore, woodland, prairie, lowland forest, and marsh areas. The trails are perfect for hiking and 11.5 miles are open to biking. There is also a 6.5-mile horse trail. In the winter, 7.5 miles of trail are groomed for cross-country skiing. There are 4.75 miles of snowmobile trail connecting the country's elaborate snowmobile trail system of more than 320 miles.

Brunet Island State Park is located at the confluence of the Chippewa and Fisher Rivers, adjacent to the City of Cornell. Much of this 1200-acre park is located on a large, scenic island. The park has hiking, nature, and cross-country ski trails. Other facilities include 69 campsites, picnic areas, electricity, shelters, and playgrounds, as well as an athletic field, swimming beach, and boat landing, the park is also connected to the Old Abe State Trail, via a one-mile trail link.

Situated along the Ice Age National Scenic Trail, the Chippewa Moraine Ice Age State Recreation Area offers unspoiled beauty with kettle lakes and many glacial features. This 3000-acre recreation area is one of nine units of the Ice Age National Scientific Reserve. The Visitor Center is open year around, 8:30 a.m. to 4:30 p.m. daily, and features displays and films describing the area's unique glacial geology and natural history. There are about 13 miles of hiking trails in the reserve, including 9.5 miles of the Ice Age National Scenic Trail.

The Old State Trail is a paved, 19-mile abandoned railroad corridor owned by the State Dept. of Natural Resources and managed/maintained by Chippewa County. Located between the cities of Chippewa Falls and Cornell, the trail winds through agricultural and forestland, while following the Chippewa River. The trail has been developed for hiking, biking, and inline skating. About 5.5 miles of horse trail has been established, parallel to the bike trail, and most of the trail corridor is open to snowmobiling during the winter. A State Bike Pass is required for 16 and over. Self-registration passes are available at various points along the trail.

If you're in the Chippewa Falls area looking for a place near town for a relaxing and picturesque hike, the River-view Reserve is a great place to go. The Reserve is approximately 88 acres of undeveloped land on the east edge of Chippewa Falls. It includes a scenic bluff overlooking the Chippewa River and over a 1/2 mile of undeveloped, wooded frontage adjacent to the river.

County Parks

Pine Point County Park is located on a peninsula adjoining 2900-acre Lake Holcombe. All campsites, and the day use area, are entirely wooded. Plenty of trees, a nice swimming beach, and good fishing, make Pine Point a popular vacation spot.

A picturesque campsite awaits you at Otter Lake County Park. This wooded park is situated on Otter Lake, one of the finest fishing lakes in Chippewa County. Walleye, bass, and pan fish abound. A fine swimming beach, picnic area and boat launch, along with a very scenic setting, make Otter Lake one of our more beautiful parks.

Morris-Erickson County Park is located on the shores of crystal clear Long Lake. Long Lake is popular as a swimming, boating, and fishing lake, with excellent walleye and musky fishing. The park's well-maintained sites, and open setting offer a nice view of Long Lake.

For swimming fun or a picturesque picnic setting, Round Lake County Park is the place to go. The park has one of the finest natural beaches in the County. One of our newest parks, it is located on 216-acre Round Lake, in northwestern Chippewa County's Township of Sampson.
