UNIQUE GENETICS | AGRONOMICS | STANDABILITY | PERFORMANCE

THE BEST AGRONOMICS

Start
with the
right product
on the
right acre

Getting the right product on the right acre depends on the right package of agronomic traits for each field. At Pioneer, hybrid advances result from research conducted where you live — in the extreme conditions you often face. Pioneer uses an industry-leading scoring system to measure agronomic traits, including emergence, root and stalk strength, disease resistance, and drought and stress tolerance. Data-driven agronomic ratings and on-farm experience enable your Pioneer sales professional to recommend hybrids with excellent plant health and standability for each of your fields. The result: maximum harvestable yield.
