

THE PRELUDE TO THE ANTICHRIST

The purposes of this illustration is to show what the time span of the Central Blood Moons from 2011 to 2018. These 2 total lunar eclipses are like a 'bookend' of a specific time. This time is approximately a 7 year span. What is unique about a Central Blood Moon is that the Moon passes the center of the shadow of the Earth. Another name for these lunar eclipses is called the Bull's Eye. Other perspectives about these 2 peculiar that will be depicted on the chart is that the constellations will reversed to show the start of the June 15, 2011 Central Blood Moon first in the sign of Ophiuchus. The other Central Blood Moon will occur in July 17, 2018 in the sign of Capricorn. The June 2011 Central Blood Moon that occurs in Ophiuchus is right on the Ecliptic. The Blood Moon of July 2018 occurs approximately 9 degrees below the Ecliptic in Capricorn. What is unique about this timespan and juxtaposition of the 2 Blood Moons is that they are in phi ratio relationship to the sign of Sagittarius. In specific, the star in this sign is Kaus Sagittarius. As to its possible prophetic significance remains to be seen. One possible depiction is that the time from the Bull's Eye bookend could be the sign of the rise of the AntiChrist. This is stipulated on the imagery of the duality not only of Sagittarius itself but the dichotomy of the notion of the Christs to come.

The image of the AntiChrist according to the Bible is that he will be a man coming in the name of peace on a metaphorical white horse. He is ascribed a bowless arch and yet goes to conquer the world through lies, deception and false peace. The duality of his nature comes when the AntiChrist at some point will be totally possessed by Lucifer. This devised plane is only a carbon copy of the true depiction of the sign for the Messiah. The duality is seen GOD the SON becoming man in the hypostatic union in Jesus. It is Jesus that is the true Prince of Peace and is yet to come at the end of Jacob's Trouble to fulfill His the total conquest He procured at the cross of Calvary. The coming time between 2011 and 2018 could be the time that will escalate the step and be the prelude of the advent of the Biblical AntiChrist. As the sign Sagittarius is the prime depiction during this stage of time. The secondary signs of Ophiuchus and Capricorn are the tributary depictions that on one factor, Ophiuchus alludes to the man enveloped by the Serpent.

This is the Biblical man of whom the Dragon empowers during the Tribulation. As to the Capricorn sign, perhaps it could be the case that in 2018 is the time that there will be ascendancy of the Goat. This supposition is based on the Biblical inference that the Satanists and Luciferians use the Goat as one of their primary signs, as in a Baphomet. Conversely, the true depiction according to the work of EW Bullinger, Ophiuchus is the depiction of Jesus overcoming Lucifer the Shining Serpent. Capricorn is the depiction of Jesus being Sacrificed on the 'altar' of the cross. As Capricorn is a dual land and sea creature, Jesus has the dual nature of the heavenly and the earthly.

Lunar Eclipse

Where the Earth Blocks the Sun's Rays from partially/fully reaching the moon.

Partial Eclipse = Moon within Earth's Penumbra shadow.
Total Eclipse = Moon within Earth's Umbra shadow.
